Accelerated Reader®

The Accelerated Reader software program makes it easy for teachers and librarians to motivate every student to dramatically increase literature-based reading practice. Students are able to:

- 1) choose their own books from over 30,000 titles
- 2) read at their own pace and take computerized multiple-choice Reading Practice quizzes
- 3) get immediate feedback which also keeps the teacher updated on their performance

 UG - upper grades = 9 - 12

Readability and Interest Levels

Renaissance Learning™ uses Interest Levels to help indicate the appropriateness of a book's content. The Interest Level reflects the judgment of the book's publisher and the professionals at Renaissance Learning. However, the final decision on whether a book is appropriate for a particular student is the responsibility of school librarians, teachers, and parents.

Crabtree's Note About Readability Formulas

Educators have reported dissatisfaction with readability formulas for non-fiction books. Non-fiction books tend to be graded higher than usual by these formulas due to difficult or technical terminology which may already be explained within the text or in the glossary of the book.

Buy Accelerated Reader quiz sets from Renaissance Learning for any of the Crabtree titles listed on these pages. See order form for details.

NOTE: All quiz sets require Accelerated Reader software which must be purchased separately. Contact Renaissance Learning at www.renlearn.com

*NOTE: Quizzes for new titles are available 4-6 months after publication. Quiz numbers for new titles will be added to the chart below as they become available.

Guided Reading

Guided Reading is an instructional approach in which a teacher brings together a small group of children who are similar in their reading behaviors at a particular point in time. The teacher selects a text that enables them to use what they already know how to do as readers and extends their "processing power" with a few new challenges. Through reading with teaching support, they become more effective processors of text. The ultimate goal of Guided Reading is independent reading.
